Dear Reader,

This is the eighteenth issue of the ECN Brief which is a publication of the European Competition Network (ECN). The ECN is a network of the Member States' competition authorities (NCAs) and the European Commission (DG Competition). The ECN Brief aims to inform you about the activities of the ECN and its members and to reflect the richness of enforcement actions and advocacy in the Network. It focuses on news of major interest about EU competition law and policy.

The present edition covers the period from February to May 2013. Among other news, it reflects that the structure of the NCAs keeps evolving: a new Competition Authority has been set up in Belgium and the Netherlands Authority for Consumers and Markets started operating on 1 April. As reported in previous issues, the Slovenian Competition Protection Agency and the Finnish Competition and Consumer Authority commenced operations on 1 January.

More news about the activities of the ECN and its members will be published mid-July 2013. In the meantime, we wish you interesting reading!
