Dear Reader,

We are happy to close the year 2011 with an Extended Issue of the ECN Brief.

The Food & Retail sector is high on the agendas of the ECN members. Both food consumer prices and the good performance of the food supply chain are of direct consequence to all EU consumers.

In this issue, we report about the recent activities of the ECN members in the Food & Retail sector. A large variety of tools such as sector inquiries, market studies, advocacy actions as well as enforcement cases have been used by the competition authorities in the last years to enhance competition in the food sector. A wide range of products from sugar to beer, baby milk, sherry grapes and bread have been looked into by the authorities. Furthermore, relations between retailers and their suppliers have been the subject of intense scrutiny.

The ECN is planning to contribute further to this picture in 2012 with a report analysing the activities of the competition authorities in the Food sector.

Next to the Food & Retail news, the present issue also reports numerous policy initiatives. Several Member States have adopted recently new legislation in the field of competition.

The next issue of the ECN Brief will be published in February 2012. In the meantime, we wish you interesting reading and Happy Holidays!

Under 39/2 of the Austrian Cartel Act, third-parties may only obtain access to the file with the prior consent of all parties to the respective proceedings: this provision does not only apply to parts of the file containing leniency applications but to all documents. On 12 October 2011, the Austrian Cartel Court decided to stay proceedings concerning a third-party's application for access to the file relating to the imposition of fines in the so called Printing-Chemicals-Cartel and seek the European Court of Justice's guidance by way of a request for a preliminary ruling on the compatibility of the Austrian legislation governing third-party access to file in cartel proceedings with European Union law.
